It is a privilege and pleasure to welcome you to the Joint Scientific Assembly 2021 of two Associations of the International Union of Geodesy and Geophysics (IUGG), International Association of Geomagnetism and Aeronomy (IAGA) and International Association of Seismology and Physics of the Earth’s Interior (IASPEI), which is being hosted by CSIR-National Geophysical Research Institute (CSIR-NGRI), Hyderabad under the auspices of the Indian National Science Academy (INSA), New Delhi, the National Adhering Body of IUGG. The meeting would also be supported by other Earth science institutes of Department of Science & Technology (DST), Council of Scientific & Industrial Research (CSIR) and Ministry of Earth Sciences (MoES).

It is indeed a remarkable scientific event where leading researchers and academics, working in the field of Seismology, Geomagnetism, Earth’s interior, Aeronomy, and allied branches will be gathering from all around the globe to share their knowledge and experience. Along with scientific sessions, this enriching event also provides an occasion for field trips, workshops, and short excursions.

India is a vast country with unique geographical and cultural diversities and often referred to as 'UNITY IN DIVERSITY'. The Joint Scientific Assembly is being held in South-central city of Hyderabad, which offers a special opportunity to witness a lifetime experience of cultural and historic heritage of India.

On behalf of the Indian geoscience community, I cordially welcome you for exciting scientific sessions of the assembly while savouring the Nizami (royal) cuisine and comfortable stay at Hyderabad. I am sure the events of IUGG - IAGA, IASPEI scientific assembly will forge scientific cooperation among the researchers across the world, which ultimately shall lead to the betterment of mankind and society.

Dr. Virendra M. Tiwari
Director, CSIR-National Geophysical Research Institute, India
Chair, Local Organizing Committee

Hyderabad International Convention Centre

Hyderabad International Convention Centre (HICC), Hyderabad, is a state-of-the-art convention facility. HICC in every aspect, be it infrastructure, services or technology, compares with the best in the world. It has an internal hall measuring 6,480 sq m, which can be partitioned into six smaller halls. The pre-function foyer area itself exceeds 6,400 sq.m.

Hyderabad - The Host City

Hyderabad, the capital of the Telangana State, is the fifth largest cosmopolitan city in India. The city thrives with a variety of cultures intermingled into an astounding culture that gives it a distinct identity of its own. This is where tradition fuses with modernity, and heritage structures vie with modern high-rise buildings to add to the beauty of the city. Located in the heart of the Deccan plateau, about 500 m above sea level, Hyderabad is known for awe inspiring prehistoric rocks and natural lakes, along with a variety of flora and fauna. This City of Pearls, has been at the crossroads of global commerce dating back a 1000 years when the powerful Qutub Shahi and Asaf Jahi dynasties of Persian origin ruled. The emergence of a flourishing IT hub has given rise to the moniker of “Cyberabad”.

Hyderabad offers a variety of tourist attractions ranging from heritage monuments, lakes and parks, gardens and resorts, museums to delectable cuisine and a delightful shopping experience.
